ACTA Launches Revamped Web site

May 1, 2002

The Administrative Council for Terminal Attachments (ACTA) is pleased to announce the launch of its revamped web site.

Working with an objective to provide all interested parties with a portal into ACTA activities and Part 68 related issues, the revamped site was developed to emphasis site content, enhance accessibility by persons with disabilities, minimize download time for dial-up modems, and to enhance functionally. Enhanced features, such as the ability to view additional product-specific information for terminal equipment filed with ACTA, have also been added.

Ultimately, the ACTA web site will offer parties submitting terminal equipment to ACTA with online filing capabilities through the ACTA Online Filing (AOF) system. While currently under review and evaluation, on completion, AOF will support the filing types Originals, Modifications, Notice of Changes, Re-approvals or Re-certifications, and Request for Responsible Party Codes (RPC). Parties interested in AOF are encouraged to periodically visit the site for up to date information and a projected release date.

Visit the revamped ACTA web site at <http://www.part68.org>.

Questions about ACTA or this notice should be submitted to the ACTA Secretariat via E-mail at acta@atis.org, or by phone at +1.202.628.6380.
