Jim Haynes  
Chair of ACTA

Re: ACTA Adopted Standards Due for Five Year Review

Jim

TR-41 notes that the following standards documents adopted by ACTA are due for their five-year review early in 2013:

*TIA-168-B, Telecommunications – Telephone Terminal Equipment – Labeling Requirements*

*ANSI/TIA-1096-A, Telecommunications – Telephone Terminal Equipment – Connector Requirements for Connection of Terminal Equipment to the Telephone Network.*

We are aware that ACTA has received questions and comments on at least the ANSI/TIA-1096-A standard and has referred the person(s) with the concerns to TIA in the past year. TR-41 would like to request ACTA's assistance in encouraging parties who may feel there is a need to make changes to either document to bring their issues to our attention. They may do so by submitting an email to [standards@tiaonline.org](mailto:standards@tiaonline.org), filling out the feedback form at <http://www.tiaonline.org/about/contact-us>, or contacting me directly at the email address given below.

Thanks for your assistance in this matter.

Steve

Stephen R Whitesell
